## HEALTH OFFICER'S REPORT

---

*To the Board of Selectmen:*

I herewith submit my report as Health Officer of Newport for the past year. During the past year I am glad to be able to report that we have had very few cases of contagious diseases and hope it will remain the same this year. Last spring we had a few cases of whooping cough reported to this office, but this does not indicate the prevalence of this disease as many cases are not reported. This disease needs careful supervision as its after effects are often serious.

During the fall and early winter we had a epidemic of measles, but I am glad to state that has passed now, although some of our neighboring towns still have many cases. Measles are not a quarantine disease, therefore, there is no way of checking such epidemics and we hope that parents at all times will cooperate and at the first signs of a cold, fever, or rash, will keep their children at home and away from others.

I wish to thank at this time, our Doctors, State Department, School Nurse, and School Department for the help and cooperation they have always rendered.

Milk inspection has been carried on in its protection for the milk supply of the town. Inspections of barns, milk rooms and milking equipment has been carried on with the State Board of Health and milk samples have been sent to the State Board of Health in Concord.

During the past year, this office has received over 60 complaints, which varied in nature, but were investigated and remedied in most all cases. We are glad to be called on always for such instances and try to clear up such complaints.

Your Health Officer, with a Member of the State Board of Health has several times visited Restaurants and Eating Places in town regarding their standards in living up to State Laws regarding such places of business.

Our town dump custodian, Arthur L. Gamash, is still doing a very good job, and I only wish that all of our citizens would cooperate and take only rubbish to the dump. Garbage is not rubbish and cannot be classed as such and cannot be taken care of at the Town Dump.

As directed by the State Law, homes for orphaned children placed under state supervision, have to be inspected and approved each year and this routine as usual has been carried out by this department.

Respectfully submitted,

RICHARD P. DONOVAN,  
*Health Officer.*

N. H. TUBERCULOSIS ASSOCIATION, CLINIC  
AND NURSING SERVICE, NEWPORT, 1946

---

During the year 1946, the N. H. Tuberculosis Association maintained the regular schedule of chest diagnostic clinics for the early discovery of persons afflicted with tuberculosis. An important part of the work of the regular clinic is the "check-up" examination of arrested cases. In the year's work two clinics were held in Newport with an attendance of 68 persons. Fifty-eight persons had benefit of X-ray of chest, this includes new and re-examined patients. Forty positive cases of tuberculosis are under supervision of the clinic, also 85 children classified as childhood type of tuberculosis. Three patients have been cared for at State Sanatoria.

This service requires many home visits for health education of the patient and family, "case finding" and "follow-up." Our success and heartfelt thanks goes out to all who help to maintain and foster New Hampshire's winning fight against tuberculosis.

Respectfully submitted,

CLUFFIE M. GOBIE, R. N.,

## REPORT OF FIRE DEPARTMENT

---

*To the Selectmen of the Town of Newport:*

I herewith submit my report as Chief of the Fire Department for the year ending December 31, 1946.

The Department has responded to 157 calls during the year; 14 bell alarms, 131 still alarms, 5 forest fires and 7 out of town calls, about the same as the previous year.

There has been some additional improvements in the building. The apparatus is in good condition with the exception of the combination truck as was stated in my report of a year ago. There was an appropriation made at the annual meeting of a year ago for the purchase of a new combination truck. Owing to conditions that existed and the impossibility of getting a delivery within a reasonable time and other conditions it was felt best that the purchase of the truck should be postponed until the coming year and I would recommend that the appropriation as passed at the last annual meeting be extended so that it will become available the coming year. The personnel of the Department is in good shape and well drilled.

I wish to thank the members of the Fire Department and the Selectmen for the support that they have given me during the past year.

Respectfully,

GEORGE E. LEWIS,  
*Chief.*

## SUPERINTENDENT'S REPORT

---

I herewith submit my thirteenth annual report as Superintendent of Schools:

### ENROLLMENT

On account of the large enrollment in the primary grades an additional room was opened on the third floor of the Richards Block. This relieved the overcrowded conditions in the first two grades, where large classes are especially harmful, since the teacher has to give constant guidance and direction to beginners. No room in grades one and two now has more than 35 pupils. Each of these grades now has two normal-size rooms (30-35 pupils) plus a small overflow room. (20 pupils.)

A study of birth rates in Newport indicates still larger enrollments in grade one for a few years at least. The need for a building program presses upon us relentlessly. We must have more room in order to care for our children adequately.

### PHYSICAL EDUCATION

In accordance with the vote of the annual meeting of the School District last March, a full time director of physical education is now employed, John G. Barry, a graduate of the University of Michigan. His college major was in physical education and he has had experience as a teacher coach and has played with several league teams. Mr. Barry directs all the sports in both senior and junior high schools, assisted by teachers and pupils. He also has classes in games and exercises in grades 7-11 inclusive for both boys and girls. Each group meets once a week. This schedule is a very full one, including the hours of school and many afternoons and evenings. Mr. Barry is very capable and business-like and has organized the work well but we are greatly handicapped by lack of a gymnasium.

The financial accounts of all athletics in both senior and junior high schools are now kept in the office of the superintendent of schools by vote of the School Board. This seems a logical arrangement since the School District is now contributing more to the support of athletics.

It seems impossible to secure the use of the State Armory on acceptable terms, so we shall have to play basketball mostly in the Town Hall. We appreciate the cooperation of the Selectmen in furthering our basketball program.

#### REPAIRS

The chief repairs on school buildings during the summer of 1946 were as follows:

##### Primary School:

The outside woodwork was repainted.

The playground was given another coat of oil and sand.

##### Towle High School:

New direct-action flush valves were installed in the boys' toilets, replacing the overhead tanks which were worn out.

The entire parapet on the roof was covered with copper, covering the interior wall of the parapet. This seemed the only way to stop leaks which have now existed for many years. It was successful.

#### TEACHERS' SALARIES

Throughout the entire country we are experiencing a real crisis in the matter of school teachers. Thousands have left the profession and very few are preparing to become teachers. In this school union (Newport, New London, Sunapee, and Springfield) 67 teachers have left us during the past three years (1943-46.) Of this number 8 resigned on account of marriage, 33 went to other teaching positions, 23 left the profession, and 3 were dismissed. It would seem therefore that most of those teachers found their positions here rather unattractive.

The country has rather suddenly awakened to a realization that teachers to whom parents entrust the development of their children, are very poorly paid. The teachers themselves have known this right along. Now, many of them are taking more remunerative positions. As a result there are not enough qualified teachers to operate our schools. We have had to place in classrooms almost anybody, regardless of preparation or experience. In some cases this is unfortunate for the pupils. In some cases schools were closed. Unless the teaching profession is made more attractive many positions will be unfilled, or, perhaps even worse, poorly filled.

As to the sources of our teacher supply, a study of the past three years in this school union shows that we secured 25 from other schools in New Hampshire, 12 from our two teachers colleges, 4 from New Hampshire University, 14 from other states, 5 certified teachers returning to service, and 10 with permits. The largest group comes from the neighboring schools and a substantial group comes from out of state. These are experienced teachers and will expect more than beginners' salaries. Beginning teachers are now asking—and getting—higher salaries than our present maximum!

In our teachers' colleges this year only about two dozen girls will be graduated as elementary teachers. Normally this state has about 150 elementary vacancies. Our crying need is not merely increased salaries for those now in our schools, but a standard of working conditions which will induce young people to enter our schools as teachers just as soon as possible.

The increased compensation of \$300.00 voted for each teacher as a special meeting of the school district January 18, 1947, will go a long way toward increasing teacher morale and make it easier to secure good teachers to fill possible vacancies.

I want to express my personal appreciation to the teachers who have faithfully stood by to keep the schools in operation and to all others who have supported our educational program.

Respectfully submitted,

ALFRED W. SMITH,  
*Superintendent of Schools.*

## REPORT OF THE HEADMASTER OF TOWLE HIGH SCHOOL

---

January 9, 1947

Superintendent Alfred W. Smith,  
Newport, New Hampshire

DEAR MR. SMITH:

I am submitting herewith the Annual Report for Towle High School, which includes a supplement of statistical material as follows:

Table I	Enrollment by Grades
Table II	Tuition Pupils
Table III	Attendance Record
Table IV	Perfect Attendance 1945-46
Table V	Honors List—Class of 1946
Table VI	Prize Speaking Contest Results
Table VII	Student Activities Financial Report
Table VIII	Faculty Roster
Table IX	List of Graduates—Class of 1946

The significant things in our post-war high school situation are briefly these: First, a considerable number of ex-servicemen have returned to High School to complete their training, and a majority of them plan to go on to college under the G.I. Bill of Rights; Second, a well integrated athletic program has been installed in the Junior-Senior High School and includes, for the first time, physical education drills as well as the usual sports program; Third, we still are badly handicapped by the lack of modern school facilities; Fourth, there is considerable unrest among the faculty members due to the inadequacy of salaries in the light of present day living conditions.

While it is too early to make any statement as to the school's achievements, I am confident that the ability and attitude of the student body will produce some highly gratifying results as the year progresses.

Plans are being laid at the present time for the adoption next year of:

1. Revised Courses of Study.
2. An Advisory Program of Educational and Vocational Guidance.
3. Increased Participation in Student Government through a Student Council and Student Court.
4. Replacement and Improvement of Textbook and other Instructional Materials.

The faculty, students, parents and the community in general has been most cooperative and has made my return, after four years' absence, a pleasant one.

Respectfully submitted

ERNEST M. PERKINS,  
*Headmaster.*

 NO-SCHOOL SIGNAL

When the weather is so bad that it is inadvisable for children to attend school, the no-school signal will be sounded by the fire whistle at 7:30 in the morning. The signal is 2-2-2. When it is necessary to close school in the morning it will mean that school sessions will be omitted all day. It would be practically impossible to get bus and tuition pupils to attend an afternoon session only.

The no-school signal will also be given on station WKNE at 7:00; 7:35; and 8:00 A. M.

On no-school days a pre-arranged system of telephoning gives notice to those who transport school children, to teachers, and as far as possible, to out-of-town pupils. Persons who are doubtful about the no-school signal should call the Superintendent or some other member of the school department rather than the fire station. Unnecessary calling of the fire station might interfere with emergency calls which should reach the fire department quickly.

### THE STATE OF NEW HAMPSHIRE

*To the Inhabitants of the School District in the Town of Newport, in the County of Sullivan, in the State of New Hampshire, qualified to vote in district affairs:*

You are hereby notified to meet at the Town Hall in said District on the eighth day of March, 1947, at two o'clock in the afternoon, to act upon the following subjects:

Article 1. To choose a Moderator for the ensuing year.

Article 2. To choose a Clerk for the ensuing year.

Article 3. To choose a Member of the School Board for the ensuing three years.

Article 4. To choose a Treasurer for the ensuing year.

Article 5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officer or agents of the district.

Article 6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.

Article 7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.

Article 8. To hear the report of the Building Committee and pass any vote in relation thereto.

Article 9. To see if the District will vote to continue the building committee and instruct that committee to report to this School District meeting adjourned to September 13, 1947, and pass any vote in relation thereto.

Article 10. To see if the District will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the District, as determined by the School Board in its annual report.

Article 11. To see if the District will vote to authorize the School Board to borrow money on the credit of the District and issue serial notes or bonds in an amount not to exceed \$5,500.00 for the purpose of purchasing school buses if it should become necessary, this amount to be in addition to the amount of \$9,500.00 voted for the same purpose March 11, 1944.

Article 12. To see if the District will vote to increase the membership on its School Board from three to six members and elect at this meeting one additional member for the ensuing three years, one additional member for the ensuing two years, and one additional member for the ensuing year.

Article 13. To transact any other business that may legally come before said meeting.

Given under our hands and seal this 6th day of February, 1947.

## REPORT OF THE BUILDING COMMITTEE

---

The report of the Building Committee is as follows:

The need for new school construction becomes more apparent each day. Due to crowded conditions in the Primary Building; it was necessary this year to rent additional rooms in the Richard's Block. Next year it seems probable that even additional space will have to be had.

Unfortunately, the scarcity and high cost of building materials make it impractical for any committee to recommend a vote of the Newport School District to authorize construction of a new building at this meeting. The committee regrets this delay but it is beyond our control and we are unable to present final plans and estimates for a new building program for your consideration in accordance with your vote at the 1946 annual meeting.

It will be recalled that the Newport School District voted at the 1946 annual meeting to accept the report of the Building Committee which recommended:

That the Town's representatives to the next session of the General Court be instructed to introduce and procure the passage of the necessary enabling act for a bond issue on the School District not to exceed \$490,000 so that the School District may borrow the funds that may be required to build and equip said new Junior-Senior High School building, and to remodel and equip the Richards Building for a gymnasium.

Since that vote the committee has reviewed its original recommendation for an enabling act of \$490,000 with the result that it was voted to request the town's representatives to the General Court to seek an enabling act of \$300,000. Accordingly, Senator Jesse Rowell has sponsored Senate Bill No. 12 for this purpose with the support of the town's four representatives to the House.

During the year the plans submitted by Mr. Alfred Granger have been reviewed many times as well as other plans and ideas submitted by other parties.

The committee still recommends the site and general plan submitted last year but on a more modest scale. At present it

has under consideration a third plan presented by Mr. Granger which is designed to meet the immediate requirements at a cost approximately 30 percent less than that proposed last year. Detailed plans and definite cost estimates for this plan have not been prepared because of the present conditions in the building industry.

A modification of the construction proposed last year this plan provides for remodeling the Richards Building into a combined gymnasium-auditorium with a stage and dressing rooms. Under the gynasium space is provided for machine and manual training shops.

In the new construction which will be joined to the Richards Building on the recently acquired Sunapee Street site provision is made for the following:

Basketball Bleachers	Bookkeeping Room
Cafeteria	Typing Room
Sewing Room	Lecture Room
Superintendent's Office	Chemistry Laboratory
Principal's Office	Biology Laboratory
Combined Library and Study	Adequate Storage Rooms
Teachers' Rooms	New Heating Plant
Art Room	Fifteen Classrooms

## REPORT OF SCHOOL NURSE

---

Mr. A. W. Smith,  
Supt. of Schools,  
Newport, N. H.

DEAR SIR:

I herewith submit my annual report as school nurse for the Newport School District:

Little, besides the regular routine work has taken place this school year. Last Fall we were plagued by a serious epidemic of measles, over two hundred seventy-six cases were reported. This epidemic caused our attendance, especially in the lower grades, to be very seriously affected. The usual clinics have been held. We have again escaped poliomyelitis. Posture habits are still bad; stoop shoulders are much in evidence. Corrections should be done in every classroom. Despite our dental clinics, poor teeth are also in evidence. I have inspected school lunches and for the most part, have found them to be adequate. The shortening of the noon lunch hour has apparently left ample time for the children to obtain adequate lunches at home and get back to school on time. Rural people have expressed to me, their satisfaction because the shorter noon lunch time has for the most part gotten their children home much earlier and for all the children it means more time for outdoor exercise. May I take this opportunity to thank the Red Cross, Salvation Army, King's Daughters, Rotary and Lions Club and private individuals who have helped so generously in aiding me to care for many cases.

Teachers have as usual, cooperated, and have been very helpful. Your suggestions and help have been appreciated.

Respectfully submitted,

ANNA DONOVAN, R.N.
